

IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~strikethrough~~. For the Examiner's convenience, Applicants are herewith providing a marked up Substitute Specification showing the requested changes, and a clean Substitute Specification.

Please DELETE paragraphs [0031] to [0037] and renumber the remaining paragraphs.

Please REPLACE paragraph [0031] (previously paragraph [0038]) with the following paragraph:

{0038}[0031] In general, in a hard disk drive, a recording magnetic head is formed of metal, such as Permalloy containing 80% of Ni and 20% of Fe. And a slider, which supports the head, is formed of a non-metallic material.}
